5. Business Recommendations

Priority	Recommendation
Product planning	Review stock and replenishment for Phones, Chairs and Storage. Consider margin and stockout risk before changing inventory.
Top-product campaigns	Test targeted campaigns, bundles and cross-sell offers around leading products. Track margin and conversion, not sales alone.
Regional growth	Study West and East performance, then test appropriate product assortments and promotions in Central and South.
Customer retention	Create relevant loyalty and re-engagement campaigns for high-value and frequent-order customers.
Low-selling items	Review price, availability, listing quality and strategic importance before assortment decisions.
Shipping operations	Investigate Central and slow-shipping states for carrier, fulfilment and distance-related causes.
Seasonal planning	Prepare inventory and campaigns ahead of September to December; validate trends across multiple years.
Profitability	Track profit and margin alongside sales by product, region, category and segment.
Report governance	Document filters, date range, measure definitions and refresh cadence; reconcile SQL and Power BI totals.
